

John Wayne Marina Guidelines

Lido 14 2002 Championship Regatta

August 11th thru 15th, 2002

Sequim Bay YC, Sequim, Washington

Because John Wayne Marina is a public facility, we do not have the flexibility and control of activities that we would have if it were a private club. The Port of Port Angeles, who owns and operates the Marina, has been very accommodating in waiving launch fees and allowing us special privileges during Lido Regatta week. So that we don't abuse these privileges or inconvenience other recreational boaters any more than necessary, we ask that you observe the following guidelines during your visit to John Wayne Marina.

1. Overnight RV parking will be limited to two vehicles in the North lot and one in the South lot and will be on a first come-first serve basis. Those planning to RV should have a back-up plan in the event Marina space is not available. We will issue overnight parking permits which should be displayed on the dashboard of your vehicle.
2. During the day, once your boat has been launched, move all launch vehicles to the south lot, away from the launch ramp. The only exception to this will be the two RV's noted in item one and a local RV being used as a Protest Committee meeting room.
3. Observe the traffic pattern for launching boats. We hope to have club personnel available to direct traffic and to assist in launching and retrieving boats. Empty trailers should be nested as close together as possible in available parking spaces.
4. Once launched, move your boat to a dock other than the ramp dock or the bay side of the fuel dock, as far away from the ramp as possible. Note that the bay side of the outer dock may be reserved for special transient vessels. We will provide a mooring line on the shore side of one of the outer two docks for wet storage.
5. Boats and trailers may be stored overnight in either the North or South parking lots. Overnight wet storage is also permissible.
6. Individual barbequing must be done at the Marina picnic tables, not in the parking areas.
7. Showers are available from 8:00 AM to 10:00 PM on the lower floor of the Marina building beneath the Sequim Bay YC clubroom. Cost is 25 cents for 2.5 minutes. Laundry facilities are also available in the same location.
8. Standard marine hardware is available from The Bosun's Locker on the third floor of the Marina building above the Sequim Bay YC clubroom. Special hardware may be available from local vendors. Club members can accomplish limited repairs. If you need help, please ask.

We appreciate your cooperation and hope that you will have an enjoyable stay and great racing. If you have any questions or problems, please contact the undersigned or any Sequim Bay YC member.
